WORK EXPERIENCE

St. Norbert College, De Pere, WI

Theatre Technician — Aug 2016 – Dec 2019
- Required learning on-the-spot and fast retention of information
- Required consistent communication with higher-ups regarding duties and their needs
- Emphasized a hard work ethic and the need to get things done in a quick, yet orderly fashion

Follett School Solutions, McHenry, IL

Software Development Intern — *Summers* 2016 – 2019
- Worked predominately with Java and SQLite to develop and maintain automated tests
  - Used Java for the code in the back-end, as well as a SQL database
  - Gained familiarity with Agile software development and frameworks
  - Worked independently and paired programmed with full-time software engineers
- Performed regression testing alongside other select interns
  - Required quick understanding of front-end applications, both for desktop and mobile
  - Wrote reports for re-creating any and all found bugs
